Q6 · Q19

Which restaurants bring in the most revenue?

Barbeque Nation leads with ₹1,940 from 2 orders. Ranks use DENSE_RANK, so restaurants with equal revenue share a rank (Biryani Blues and Wow Momo at 5, Faasos and Behrouz Biryani at 7).

1	Barbeque Nation	₹1,940
2	Dominos	₹1,590
3	Haldiram's	₹1,510
4	KFC	₹1,350
5	Biryani Blues	₹1,340
5	Wow Momo	₹1,340

6	Pizza Hut	₹1,030
7	Faasos	₹880
7	Behrouz Biryani	₹880
8	McDonalds	₹520
9	Burger King	₹450
10	Subway	₹390

Q20 · FINAL BUSINESS REPORT

Three recommendations

Each one comes straight from the cards above.

1. Expand in Delhi

Highest revenue (₹3,820, 29% of the total) and the most orders. It stays first even without cancelled orders.

2. Promote Fast Food and Pizza

They tie as the most ordered cuisines at 4 orders each. Pizza earns more, so run offers on both and compare.

3. Fix the lower-rated restaurants

Faasos, KFC, Subway and Wow Momo rate below 4.3. Act on customer feedback, food quality and delivery delays.

How to read the numbers: revenue follows the SQL queries, which add up every order including the 2 cancelled ones (₹1,060). Delivered orders alone bring in ₹12,160.

Practice dataset, so the numbers show how the analysis works rather than real Swiggy performance.
